

AI Practitioner Certificate

AWS Certified AI Practitioner validates in-demand knowledge of artificial intelligence (AI), machine learning (ML), and generative AI concepts and use cases. Be among the first to earn this new certification when registration opens on August 13, 2024.

FOUNDATIONAL

Knowledge-based certification for foundational understanding of AWS Cloud. No prior experience needed.

AWS Certified AI Practitioner covers the breadth of AI frameworks, concepts, and associated AWS technologies, with an emphasis on generative AI. The exam content outline for AWS Certified AI Practitioner focuses on AI, ML, and generative AI. Take the exam that best aligns with your interests and needs, or both to demonstrate a strong grasp of AWS cloud and AI/ML.

AWS Marketplace

ThunderCat Technology is an authorized reseller of many training products including AWS Instructor Led Training, AWS Skill Builder and AWS Certification Vouchers. We'd be happy to help you and your team with all of your AI training and certification needs.

Step 1

Get to know the exam with exam-style questions. Review the exam guide. Take the **AWS Certification Official Practice Question Set** to understand exam-style questions

Step 2

Refresh your AWS knowledge and skills. Enroll in digital courses where you need to fill gaps in knowledge and skills, practice with **AWS Builder Labs**, **AWS Cloud Quest**, and **AWS Jam**.*

Step 3

Review and practice for your exam. Enroll in an Exam Prep course. The **Enhanced Exam Prep** courses include additional labs, exam-style questions, and flashcards.*

Step 4

Assess your exam readiness. Take the **AWS Certification Official Pretest**.*

**These materials require an AWS Skill Builder subscription.*
