Program Managers assist senior management and sales with the implementation of significant technology projects for our customers. PMs focus on providing excellent project and contract management. This requires all projects to be managed in accordance with PMI and ThunderCat processes to enable delivery within scope, time & budget. Ensure that project objectives along with contractual obligations are managed from start to finish from the initial planning stages, the execution of, and through to final project closure. Have a clear focus on serving our clients' needs and supporting their mission.

Primary Responsibilities:
- Manage the day-to-day activities of projects that are under the oversight of PMO.
- Effectively analyzes and manages risk: contractual, financial and reputational risks
- Project Management including initiation, planning, execution, monitoring & control, and close out.
- Be an example for all in terms of ethics and compliance. Adhere to the PMI, Code of Ethics and Professional Conduct.
- Conduct all project management operations in a manner that is consistent with the Company's Code of Business Ethics and Conduct.
- Provide business development assistance to senior management and sales. Specifically, proposal efforts, reviewing for PMO support requirements and contributing to the proposal team.
- Effectively communicate with stakeholders and senior leadership of departments and agencies participating in projects.
- Organize and work effectively with project teams at partners and agencies participating in various efforts.
- Develop, clarify and manage the scope of various projects including defining contract deliverables and achieving targeted outcomes.
- Participate in a success-oriented, ethical, and accountable environment within the company.

Skills:
- Excellent project management including conflict/issue resolution
- Strong ethics and integrity
- Knowledge of FAR and other laws and regulations for government contractors.
- Deep understanding of PMI (Project Management Institute) processes.
- General knowledge of information technology including LCM (Life Cycle Management) of systems
- Excellent communication skills both oral and written.

Experience:
- 5+ years of technical project management experience preferred.
- Federal information technology project management or federal logistics project management preferred.
- PMP, Project Management Professional preferred.
- Bachelor's degree or higher preferred.

Salary and compensation commensurate with experience. Benefits include, health club membership, health insurance dental, vision, short and long-term disability, life insurance and 401(k).
